

# 2013+ Scion FR-S / Subaru BRZ SIGNATURE Rear Strut Tower Bar

**MATSU MOTORSPORT "SIGNATURE"**  
Strut Tower Bar significantly increases structural rigidity of the vehicle.

- Provides greater control during cornering by reducing flex and body lean.
- With "SIGNATURE" light-weight core design, it provides a tighter, more rigid overall feel without adding excessive load to the vehicle.
- Constructed with the finest high-strength materials and anodized sand surface finishing to prevent corrosion and road damage.
- Easy installation with no modification needed.
